I want to be part of a team in which I could develop and learn new technological stack. Switch to JavaScript after more, then 10 years IC development. I have good developer skills and motivations.

I worked as System Administrator, Business analytics, DataBase programmer, Support Engineer and other technical specialist. I was setting up the different equipments, programs, servers and services.

## Projects

- This is first team project on course HTML+CSS. Landing site for restaurant. A website with a responsive layout. Role: Team Lead, developer Build project on github, check for build errors and live page performance.  
[Restaurant MIMIHO](#) ..... [\[HTML, CSS, JavaScript, Vite\]](#)
- Pet-project on addition course JavaScript. Simple task for any information about banks. Role: Team Lead, developer  
[Mortgage - bank info](#) ..... [\[HTML, CSS, JavaScript, Parcel\]](#)
- Siple application on JavaScript for generations any combinations world. The application is used in Crytoindustry, a volunteer project  
[CoDeGenerator](#) ..... [\[HTML, CSS, JavaScript, Parcel\]](#)
- Create the front-end part of the application for searching and viewing images by keyword  
[Searching and viewing images](#) ..... [\[HTML, CSS, JavaScript, Parcel\]](#)
- Phonebook is a convenient and user-friendly application designed to organize your personal phonebook. With our app, you can store, manage, and quickly find all your contacts.  
[Online Phonebook](#) ..... [\[React, Redux, @chakra-ui, Parcel\]](#)
- This app can cover any photos with a flag of your chosen country  
[Country flags](#) ..... [\[React, React-router, @emotion/styled, Parcel\]](#)
- Work with Telegram bot API. Add any functions: menu, answers, mini game, send and receive any format data, work with any keyboards.  
[Telegram Bot - Node.js](#) ..... [\[Telegram-bot-api, Express, PostgreSQL, sequelize\]](#)
- GooseTrack's Calendar view provides a comprehensive overview of your schedule, displaying all your tasks, events, and appointments in a visually appealing and intuitive layout.  
[GooseTrack's Calendar \(Front-end\)](#) ..... [\[Vite & Express, bcryptjs, mongoose, swagger\]](#)  
[GooseTrack's Calendar \(Back-end\)](#) ..... [\[Vite & REACT, Redux, Formik, @mui/material\]](#)

## Work Experience

### DataBase Programmer **TOV Group Veneto**

April 2015 - up to now | Ukraine

- [Microsoft SQL servers 2008-2019](#) (setup, configuration, backUP, management)
  - [Microsoft Windows 2012-2022 server](#) (setup, configuration, administration) - Active Directory, RDP, RemoteApp, FTP
